

ADVANCED COACH DEVELOPMENT

MENTOR COACH TRAINING

BECOME A MENTOR COACH

We equip experienced ICF-credentialed coaches to provide professional Mentor Coaching services for ICF credentialing. Participants must hold a an ICF PCC or MCC credential.

This programme covers an in-depth understanding of the ICF Core Competencies, how the PCC Markers are used for assessment purposes and how to provide effective feedback as a Mentor Coach. It will also provide opportunities to practice Mentor Coaching with other participants as well as engaging with an external Mentee as part of the programme's curriculum.

The programme comprises five virtual workshops, across a 5-month period, totaling 25.5 contact hours. Alongside and in between the workshops, participants should allow for at least 15-hours of individual and group work with colleagues. Participants are also expected to be working with at least one mentee outside of the programme, elements of which will inform programme assignments. The programme culminates in an assessment process, successful completion of which leads you to receive your Certificate in Mentor Coaching for ICF Credentialing.

"This is an amazing programme with the most brilliant facilitators who have such wisdom to share. I loved every minute of this programme, and it is the best in the market! It is a must for mentors and anyone looking to deepen their knowledge of ICF coaching."

Jackie Haywood, PCC
